

# Kuhlmann 0-120°C Drum Base Heater

## DESCRIPTION

Kuhlmann Electro Heat Drum Base Heater is used to heat drum from the bottom rather than traditional blanket style heater. However it can be used in conjunction with a blanket style heater for faster and more efficient heating.

## BENEFITS

- Safety Thermostat
- Easy and simple to use
- Can add additional power to traditional blankets

## TECHNICAL DATA

Temperature Range	0 – 120°C
Standard Controller	Digitherm Digital Controller
Base Material	Stainless Steel
Insulation	50mm High Density Rock Wool
Power (Voltage)	230V
Plug Type	AS/NZS 3112 (Tested & Tagged)

## AVAILABLE SIZES

Size	Power	Colour
200L (550mm x 550mm)	900W	Silver
